how the war on drugs is maintained through racism authority and public opinion from the hit television series breaking bad to daily news reports anti drug advertising campaigns and highly publicized world wide hunts for narcoterrorists such as joaquin el chapo guzman the drug methamphetamine occupies a unique and important space in the public s imagination in meth wars travis linnemann situates the meth epidemic within the broader culture and politics of drug control and mass incarceration linnemann draws together a range of examples and critical interdisciplinary scholarship to show how methamphetamine and the drug war more generally are part of a larger governing strategy that animates the politics of fear and insecurity and links seemingly unrelated concerns such as environmental dangers the politics of immigration and national security policing tactics and terrorism the author s unique analysis presents a compelling case for how the supposed meth epidemic allows

politicians small town police and government counter narcotics agents to engage in a singular policing project in service to the broader economic and geostrategic interests of the united states

galax a small virginia town at the foot of the blue ridge mountains was one of the first places that henry h brownstein timothy m mulcahy and johannes huessy visited for their study of the social dynamics of methamphetamine markets and what they found changed everything they had begun by thinking of methamphetamine markets as primarily small scale mom and pop businesses operated by individual cooks who served local users generally stymied by ever more strenuous laws but what they found was a thriving and complex transnational industry and this reality was repeated in towns and cities across america where the methamphetamine market was creating jobs and serving as a focus for daily lives and social experience the methamphetamine industry in america describes the reality that the methamphetamine industry is a social phenomenon connecting local national and international communities and markets the book details the results of a groundbreaking three stage study part of a joint initiative of the national institute on drug abuse and the national institute of justice in which police agencies across the united states were surveyed and their responses used to identify likely areas of study the authors then visited these areas to observe and interview local participants from users and dealers to law enforcement officers and clinical treatment workers through the eyes and words of these participants the book tells the story of the evolution of methamphetamine markets in the united states over the past several years given changes in public policies and practices and changing public opinion about methamphetamine the authors look closely at how the markets are part of a larger industry how they are socially organized and how they operate they also consider the relationships among the people involved and those around them and the national regional and local culture of the markets their work demonstrates the importance of understanding the business of methamphetamine and by extension other drugs in society through a lens that focuses on social behavior social relationships and the cultural elements that shape the organization and operation of this illicit but effective industry
